FOR MUSCULOSKELETAL DISEASES**

RHEUMA PAIN WORKSHOP MADRID - 15/16 MAY 2020

Rheuma pain workshop is the first multidisciplinary course dedicated to musculoskeletal specialists who want to learn how to perform ultrasound guided diagnostic and therapeutic procedures. A two days course in one of the best applied anatomy laboratory where you will interact with a group of international specialist of different disciplines to improve your skills, acquire new ones and trust in ultrasound-guided procedures.

APPLIED ANATOMY LABORATORY

One of the best dissection room of the world.
More than 450 m² to practice with the best equipment!

THIEL EMBALMED CADAVERS

Thiel embalmed cadavers have the closest textures with living model

COURSE COORDINATORS

Dr Felice Galluccio

Division of Rheumatology - Department of Clinical and Experimental Medicine - AOU Careggi - University of Florence ITALY

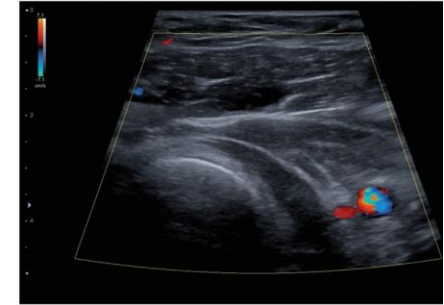

Prof Mario Fajardo Pérez

Department of Anatomy, Histology and Neuroscience, Autonomous University of Madrid, Madrid (Spain)
Department of Anesthesiology and Reanimation, Móstoles University Hospital, Madrid (Spain)

An application will be made to the European Accreditation Council for Continuing Medical Education (EACCME) for CME accreditation of this event.

ULTRASOUND GUIDED PROCEDURES AND INTERVENTIONS FOR MSK DISEASES

MUSCULOSKELETAL ANATOMY AND SONOANATOMY

01

Discover ultrasound anatomy to recognize the fundamental anatomical structures for diagnostic and therapeutic ultrasound guided procedures.

ULTRASOUND GUIDED PROCEDURES AND INTERVENTIONS

02

Learn the main diagnostic and therapeutic procedures such as arthrocentesis and aspiration of synovial fluid, intra and extra-articular injections and nerve blocks.

SPECIAL INTEREST ULTRASOUND GUIDED PROCEDURES

03

Learn how to perform ultrasound guided synovial, muscles, soft tissue masses and kidney biopsy and how to perform ultrasound guided minimally invasive surgical interventions like carpal tunnel and trigger fingers.

99% PRACTICAL
